

Garden Stool Plan

MATERIALS AND TOOLS:

- (1) 2x4" x 8' and (1) 2x8" x 8' piece of douglas fir lumber
- (20) 2 1/2" decking screws, saw, drill, speed square, tape measure

BUILD INSTRUCTIONS:

- Assemble starting from the left side to the right side of the stool, with two screws per connection
- Middle vertical support is attached with two horizontal screws from the right and two diagonal screws from the left
- Construct on flat ground to ensure stool is level and all edges are flush
