

Hexagonal Bed Plan

MATERIALS AND TOOLS:

- (2) 2x10" x 8' pieces of douglas fir lumber
- (6) 3/8" x 3 1/2" carriage bolts with washer and nut
- (40) 3 1/2" decking screws, saw, drill, speed square, tape measure

BUILD INSTRUCTIONS:

- Attach one board at a time on a flat surface
- Use three screws per connection, alternating directions from one board to the other
- Optional: Beds can be made double-high by using 16" 2x4's to connect two courses
